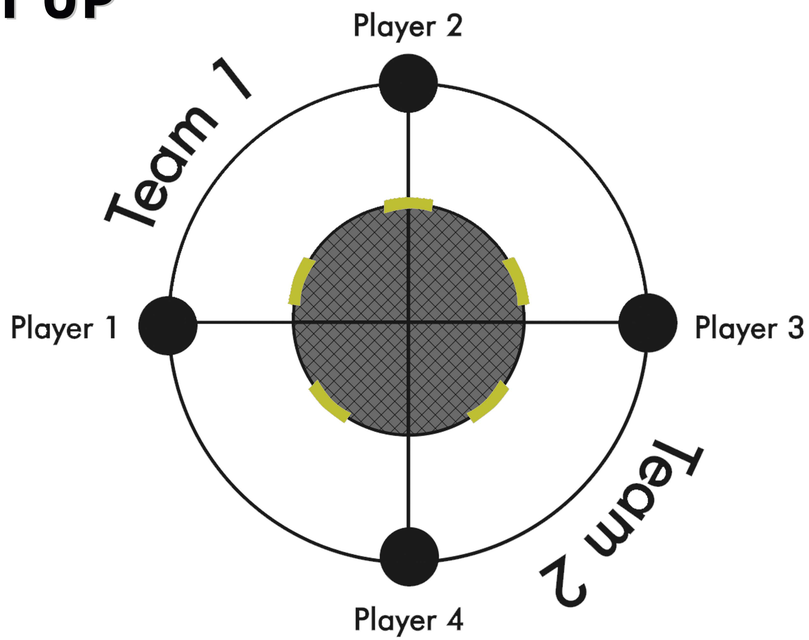
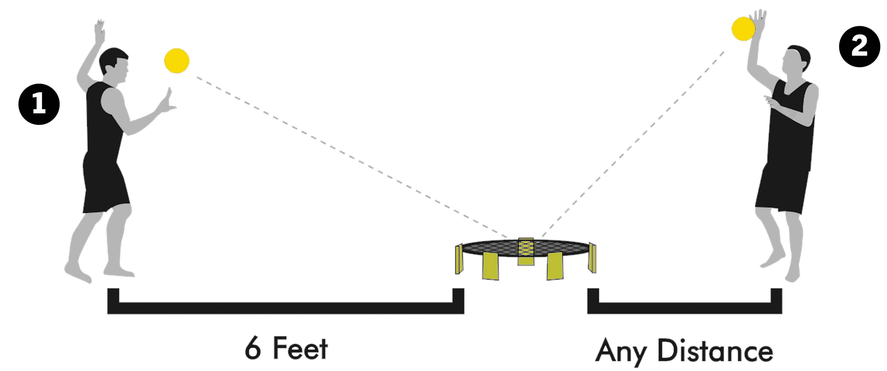
HOW TO PLAY

SET UP



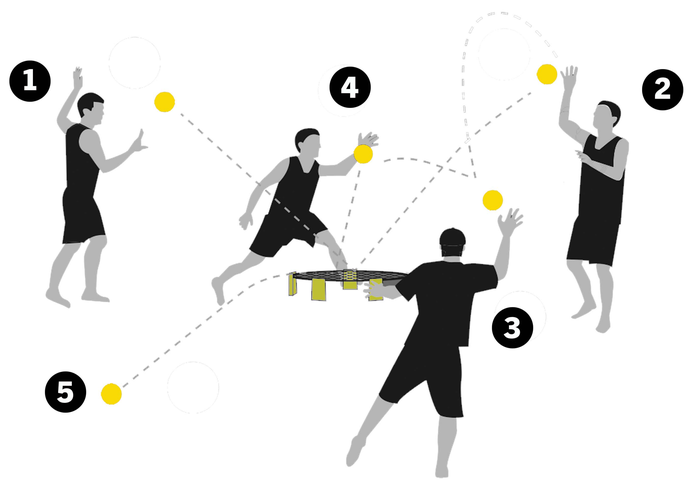
SERVE

The ball must come cleanly off the net on a serve. If the serving team cannot hit a legal serve on the second try, they lose the point. Server stands directly across from the receiving player at six feet away from the net. Only the designated receiver can field the serve.

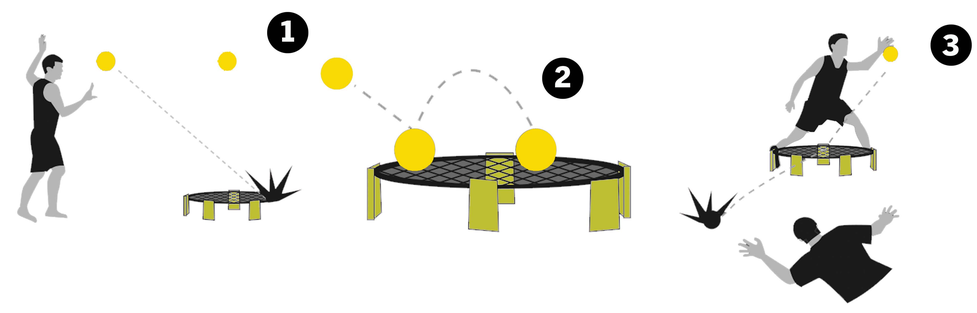


PLAY

Hits must alternate between teammates. If the ball hits any part of the ground or rim it is no good. There are only "lets" on the serve. If teams cannot determine if the ball hit the rim, replay the point.



SCORE

Rally scoring (points can be won by the serving or receiving team). Switch sides after one team reaches 11 points. Points are scored when:


1. The ball hits the rim
2. The ball doesn't bounce off the net in a single bounce.
3. The ball hits the ground.
